IDYLLIC TECHNOLOGY

Idyllic ATS Recruitment management platform

AI-powered ATS

Every hire, start to finish, on one screen.

An AI-powered ATS for recruitment agencies and in-house HR. It reads JDs and resumes, finds and ranks candidates, screens and tests them, and books the interviews.

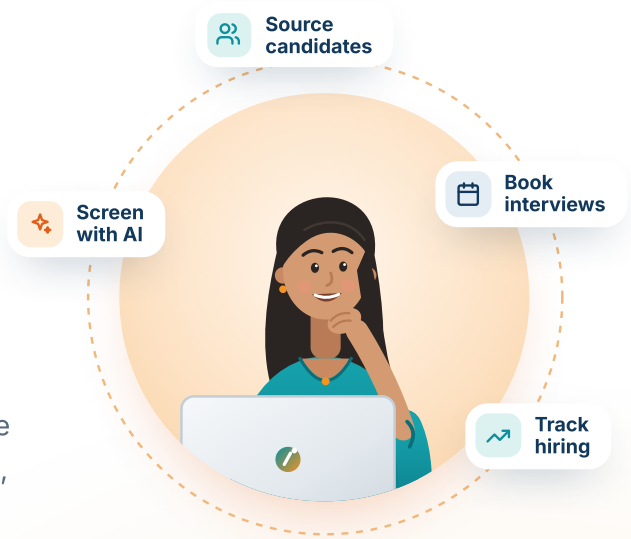
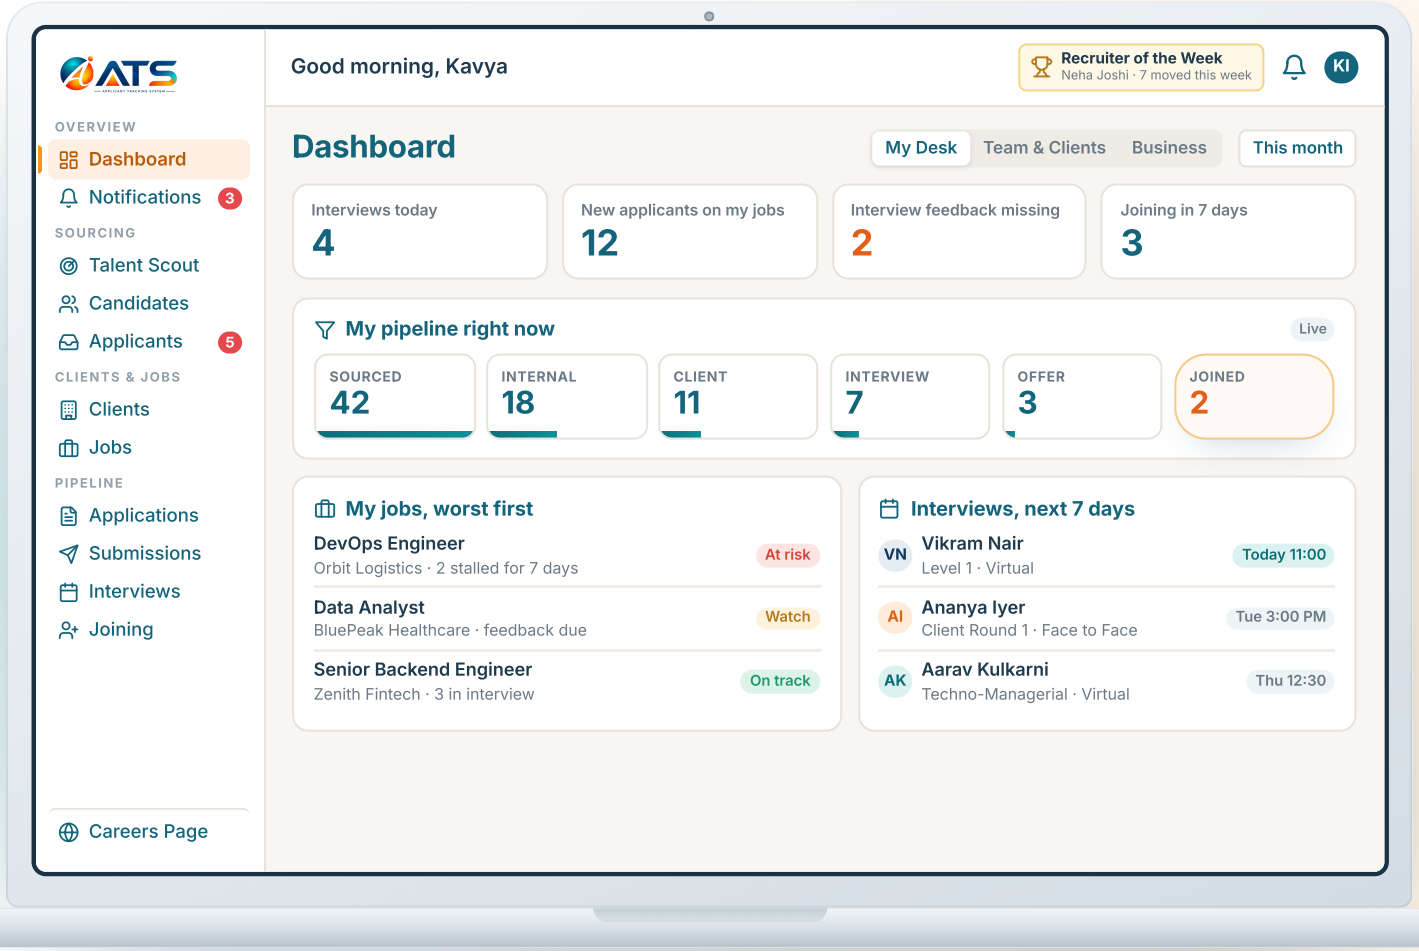
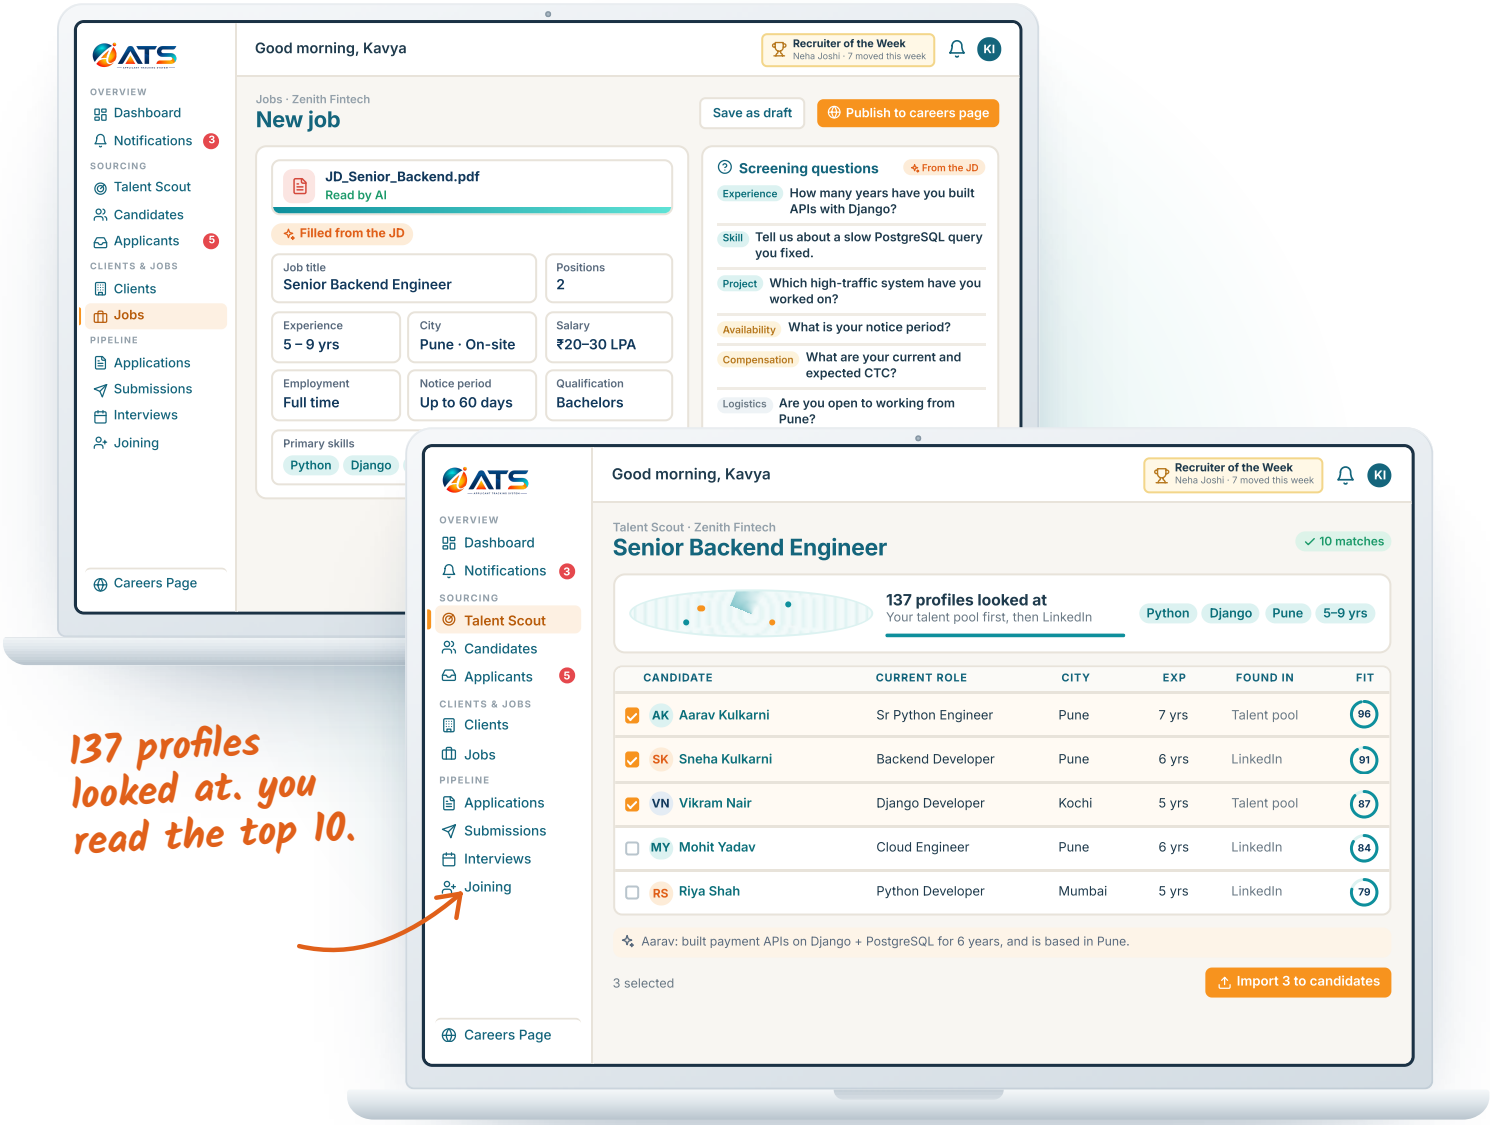
idyllictechnology.com





9:30 am. A client sends a new JD.

By evening, the shortlist is with the client and the interviews are booked. This is how.



137 profiles looked at. you read the top 10.

9:30 am

Job ready

AI reads the JD, fills the job form and writes the screening questions.

9:35 am

Ranked matches

Talent Scout searches your talent pool, then LinkedIn. Each match comes with a reason.

12:00 pm

Shortlist sent

Profiles go to the client from your mailbox, with submission IDs and a tracker.

5:00 pm

Interviews booked

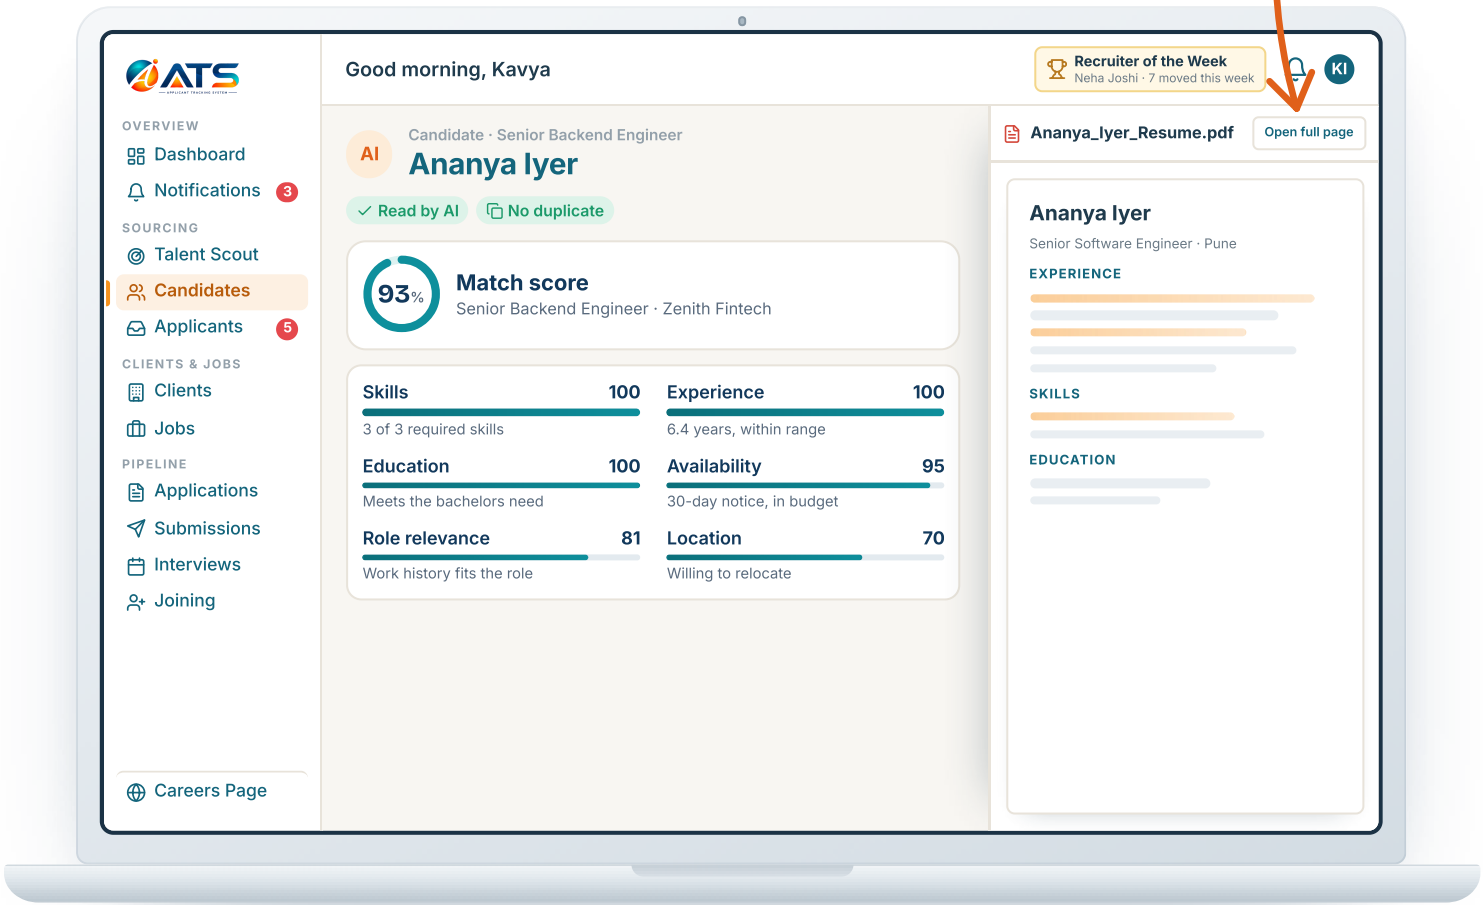
The whole shortlist is booked at once, with a reminder an hour before each round.

Sample data. Times shown for illustration.

Every score shows its reasons.

the resume opens right beside it

Resumes are read by AI, duplicates are caught on email and phone, and the match score shows each part, its weight and why.



AI reads, ranks and explains. **Your team** makes every decision: who makes the shortlist, what goes to the client and who gets the offer.

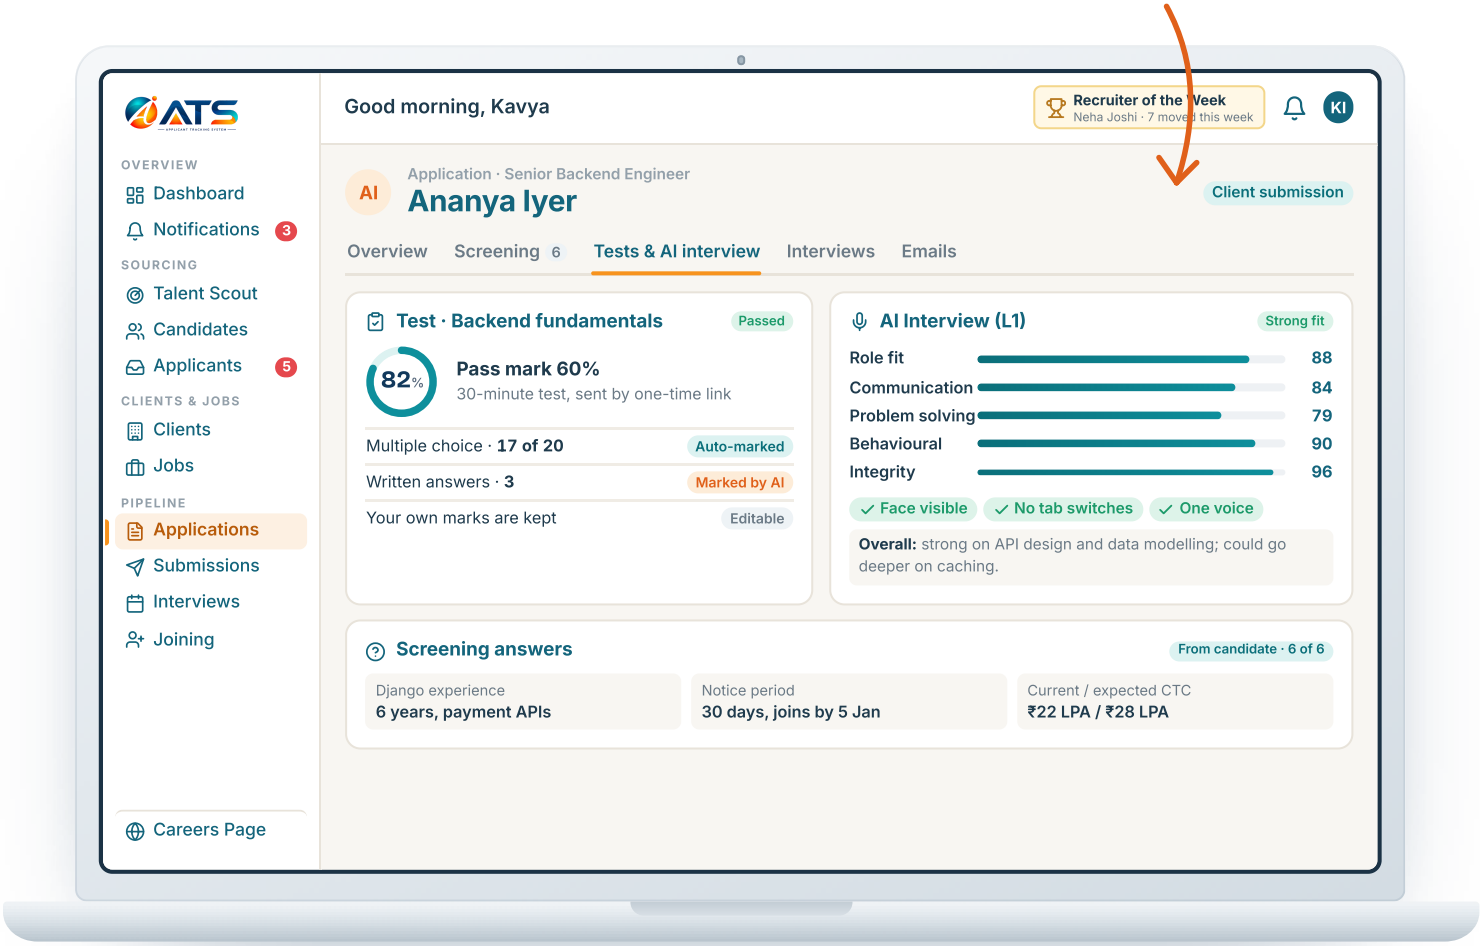
no black-box scores. ever.

Sample data.

Screen, test and interview, before anyone books a call. NEW

Candidates answer by link. The marks and the report come back to their application, ready for your team to read.

LI done. nobody spent an hour on a call.



Screening questions

Written from the JD when the job is created. Ask them on the call or send a one-time link.

- Experience, skills, notice, pay
- Answers saved on the application

Online tests

Built by hand or by AI, with a time limit and a pass mark.

- Multiple choice marked at once
- Written answers marked by AI
- Unsure answers flagged for review

AI interview (L1)

A voice interview built from the JD and the candidate's profile.

- Role fit, communication, problem solving
- Which claimed skills were shown
- Integrity flags

Sample data.

What it does for your hiring team.

AI job set-up
Upload a JD and the job form fills itself.

Talent Scout
Your talent pool first, then LinkedIn, ranked.

Explainable match score
Every part, its weight and the reason.

Duplicates caught
On email and phone, before a second profile is made.

Careers page
On your own website. Applicants arrive scored.

Screening and tests
Questions from the JD, tests marked by AI.

Shortlists to clients
Templates and trackers, from your own mailbox.

Interviews in bulk
A whole shortlist at once, reminder an hour before.

Joining tracked
Overdue joins and each client's locking period.

Dashboards for every role
Every number opens the list behind it.

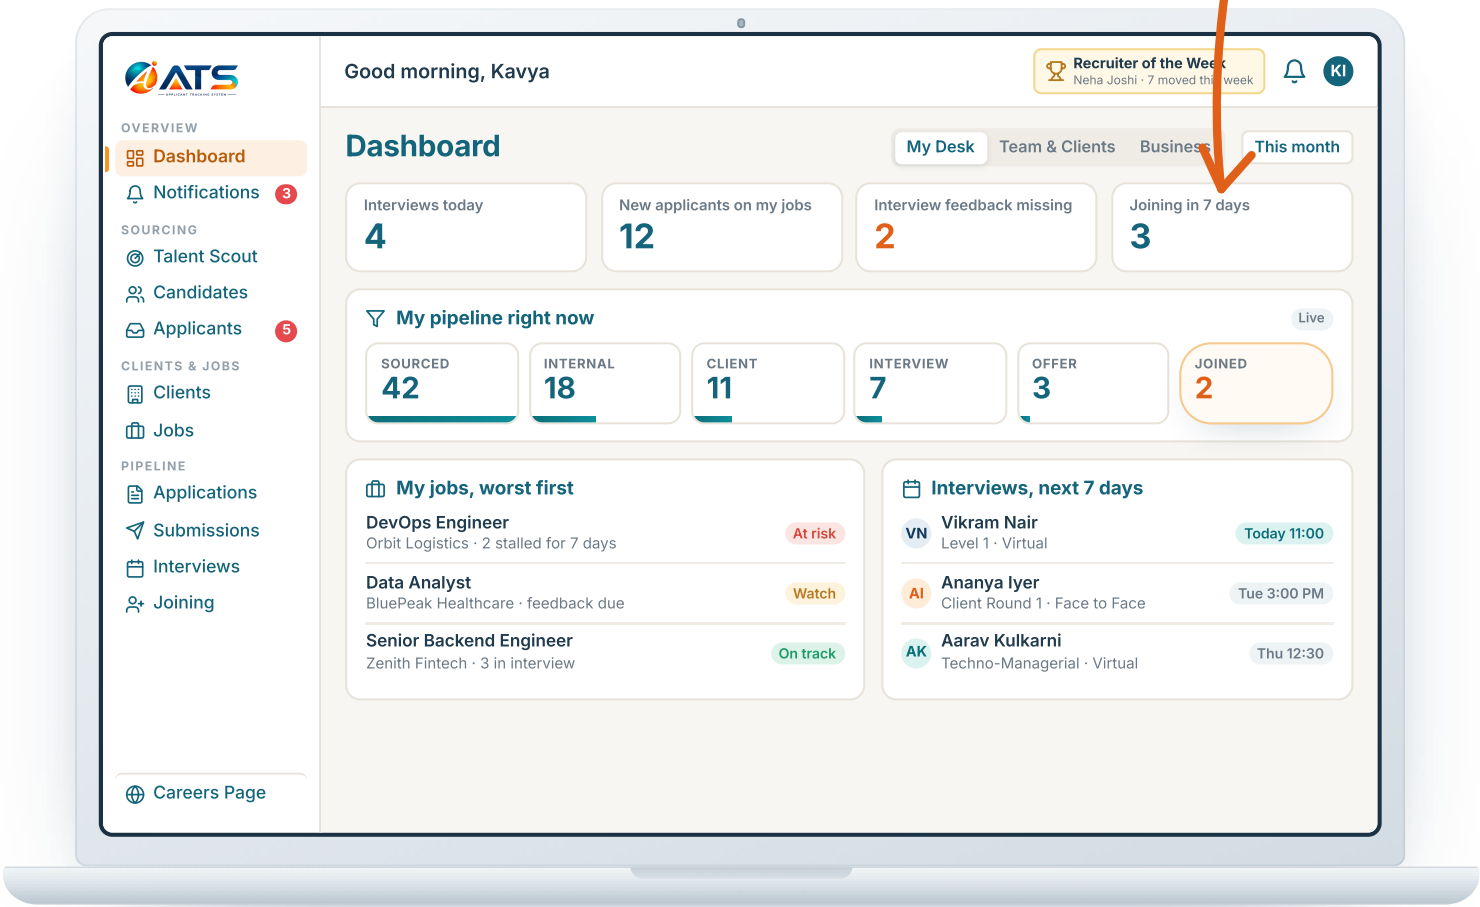
Secure by design. Role-based access for every user, an append-only audit trail of every change, and encrypted credentials with account lockout.

every change, on record.

Every desk, at a glance.

click any number, see the list behind it

A dashboard for each role, live all day. Every number opens the list of candidates or jobs behind it.



My Desk

Every recruiter

- Interviews today and this week
- Feedback still missing
- My jobs, worst first

Team & Clients

Managers

- Pipeline funnel and time in stage
- Who is waiting on whom
- Why we lose candidates

Business

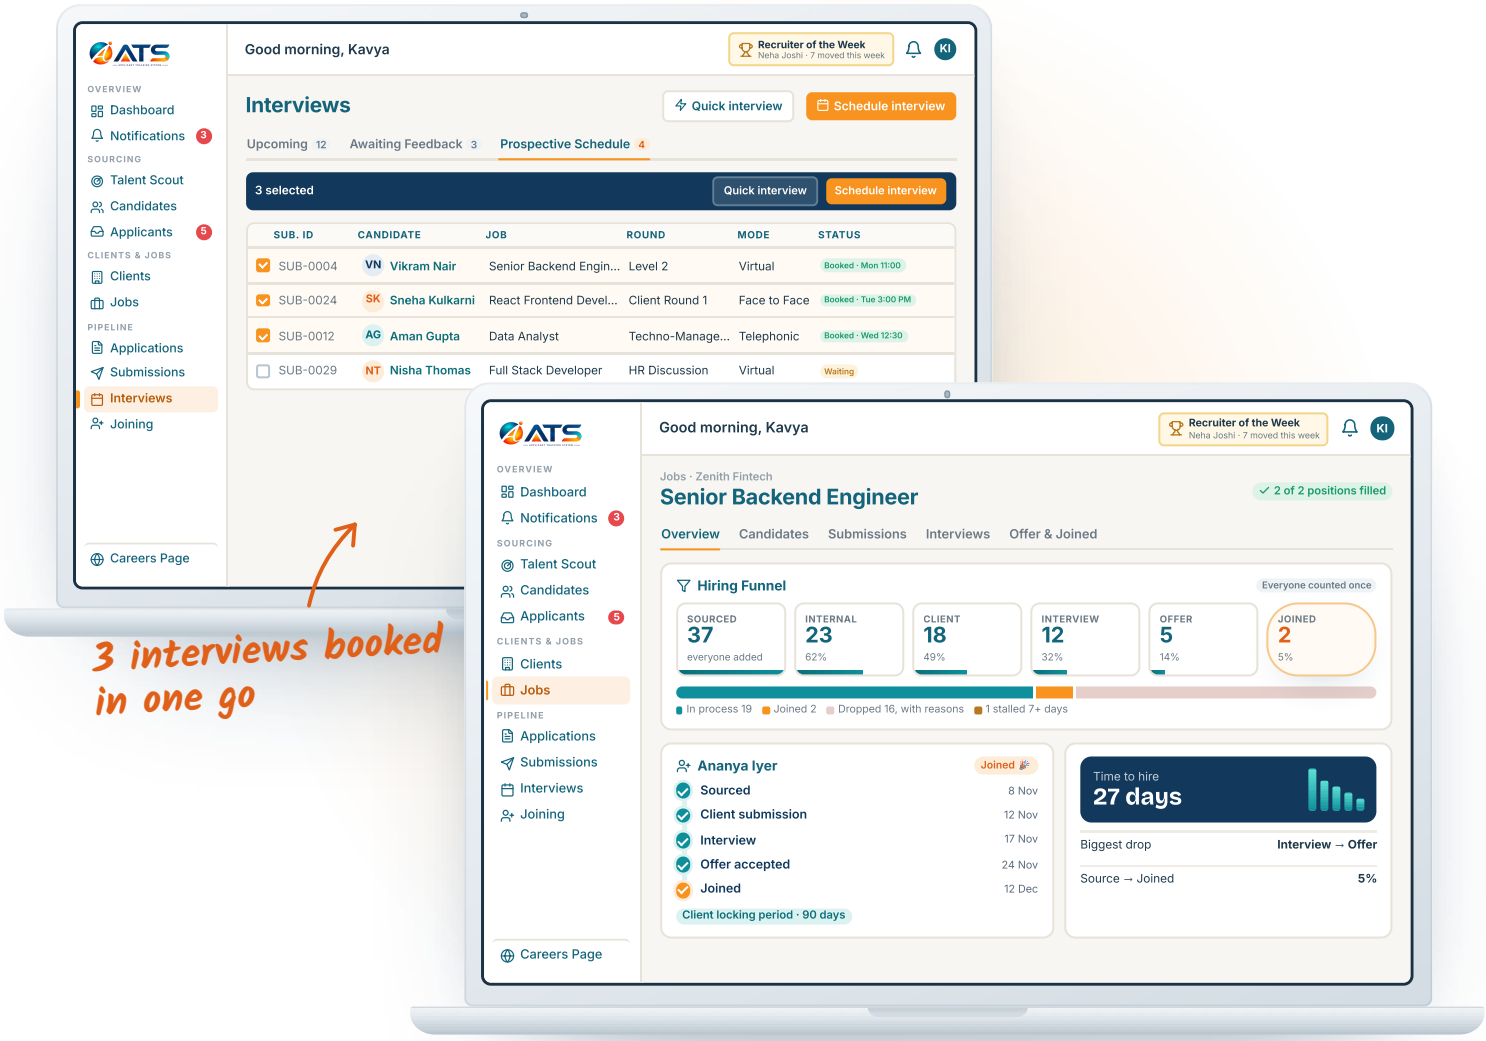
Leadership

- Placements and fill rate
- Recruiter leaderboard
- Sources that place

Sample data.

From interview to joining day.

Book rounds in bulk, record feedback before every offer, and follow each hire past day one.



Bulk booking

Full or Quick interviews for a whole shortlist, each with its own round.

Hiring Funnel

Every stage on each job, who is stalled for 7 days and why people dropped.

Joining and locking period

Overdue joins, Washed Away and Absconded, locked after the client's period.

Sample data.

IDYLLIC TECHNOLOGY

Let's set it up for your team.

1 We create your account, users and roles
Admins, Hiring Managers and Recruiters, each with their own view.

2 Connect your mailbox and add your careers page
Emails go from your own address. Jobs appear on your website.

3 Upload your first JD
Talent Scout starts finding the right people.

Want to see it live?

Book a demo and we'll show it working with your own jobs and clients.
